...Exceptional Performance

Motion Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms.

Door & Window Contact Detectors

These monitor the opening of doors, windows, cupboards, drawers etc. Visible or hidden/covert versions are available in 3 different colours.

Wireless Covert Accelerometer

Designed to protect your most valuable possessions, the W-ACC-C is discreet enough to be concealed in or on almost any item and signals an alarm when the object is moved. Available in 3 different colours.

Detectors

Cover every angle

Ceiling Mount Detectors

Outstanding detection in a sleek and easy to install housing. The Orisec 360 detectors achieve the ultimate balance between detection performance and false alarm immunity.

Shock Detectors

Shock detectors monitor windows and doors for vibrations caused by attempted break-ins and will activate an alarm before an intruder gains entry to your property. Visible or hidden/covert versions are available in 3 different colours.
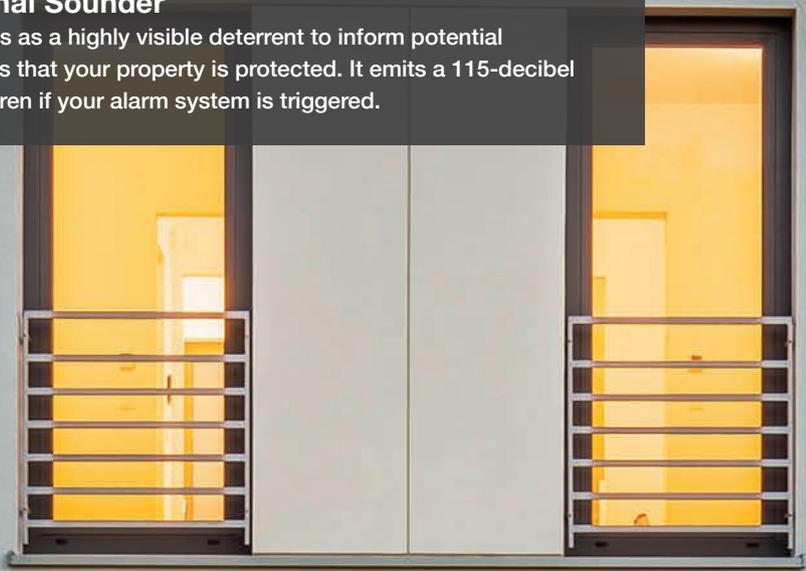

Fire & Flood Detectors

Each model in the Fire & Flood detector range can operate as a stand-alone detector with an integrated sounder. They can also be interlinked so that all detectors will sound in the event of a fire. Furthermore, the detectors can be integrated with all Orisec wireless devices so that activations can be reported via the control panel to a monitoring station or to our mobile phone apps.

External Sounder

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered.

Illuminated Sounder

For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

External Sounder

First line of defence

Wireless Panels

40 zone stand-alone wireless panels. Available with either an integrated keyed keypad or touchscreen.
Protect your family, home or business with the most advanced wireless intruder alarm technology.

ControlLite
Simple to use, the ControlLite App offers users full arming and disarming in a straightforward and intuitive format.

ControlPlus
The ControlPlus app gives users complete visibility of their system, allowing total operational control, system event notifications and monitoring from anywhere, at any time.

Apps
Advanced and easy to use.
